

# Aluminum Can Recycling

- Aluminum cans should be emptied and placed in recycle bins marked with "Aluminum."
- Aluminum cans are accepted either whole or crushed.
- Aluminum cans contaminated with food, tobacco or other foreign materials will not be accepted.
- Participants in the Curbside Recycling Program are responsible for placing accumulated aluminum cans in the roll-off bins for pick-up.

Do not mix Aluminum Cans with other types of metal containers/materials.

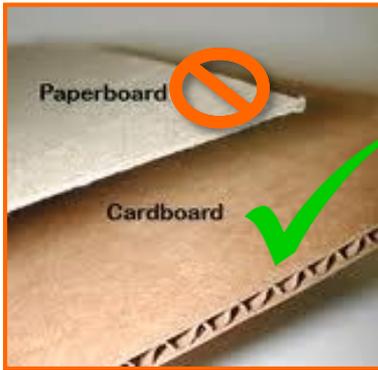

Turn in at the Fort Polk Recycling Center or at the 24 hr. recycling drop-off located at BLDG# 3622 on the corner of Georgia and Main Ave.

Or

Participate in the Curbside Recycling Program. For more information, contact 531-4352.

# Cardboard Recycling

- Cardboard is corrugated, paper board is not. Paper board is considered mixed paper.
- Cardboard boxes should be broken down before turn-in.
- Waxed corrugated boxes are not recyclable and can be placed in the trash.
- Cardboard that is contaminated with food can not be recycled (ex. pizza boxes).

Do not mix **Cardboard** with paper board or other types of materials.

Turn in at the Fort Polk Recycling Center or the 24 hr. recycling drop-off located at BLDG# 3622 on the corner of Georgia and Main Ave.

Or

Deposit in green dumpsters stationed around the installation marked for cardboard recycling (managed by a solid waste contractor).

# White Paper Recycling

- **ONLY WHITE** office printer paper and copier paper may be placed in the white paper bin (may have colored or black/white ink).
- Staples do not need to be removed.
- **REMOVE** clam clips, binder clips or any other paper material that is not considered to be white paper (folder covers, binders, sticky notes, etc.)
- Paper that is contaminated with food, other types of paper or gets wet will not be accepted for recycling.
- Participants in the Curbside Recycling Program are responsible for placing accumulated white paper in the roll-off bins for pick-up.

Do not mix **WHITE PAPER** with other types of paper material.

Turn in at the Fort Polk Recycling Center located at BLDG# 3622 on the corner of Georgia and Main Ave.

Or

Participate in the Curbside Recycling Program. For more information, contact 531-4352.

# Plastic Beverage Container Recycling (#1 PETE)

- Plastic beverage containers marked type "1" are accepted for recycling.
- Containers are clear (no color) beverage containers.
- Ensure plastic containers are free of liquid and the **CAPS ARE REMOVED** before placing in the recycling bins.
- Caps can be disposed of in the trash.
- Bottles do not have to be rinsed, but **CANNOT** contain tobacco products or other foreign material in the bottle.
- Plastic beverage containers can be taken to the Fort Polk Recycling Center.
- Participants in the Curbside Recycling Program are responsible for placing accumulated plastic beverage containers in the roll-off bins for pick-up.

Do not mix **#1 PETE** plastic beverage containers with other types of plastics.

Turn in at the Fort Polk Recycling Center or the 24-hr Recycling Drop-off located at BLDG# 3622 on the corner of Georgia and Main Ave.

Or

Participate in the Curbside Recycling Program. For more information, contact 531-4352.

# Shredded/Crosscut /Pulverized Paper Recycling

## Shredded Paper

- Store shredded paper and cross-cut paper (>1" long) in clear plastic bags.
- Do not place shredded paper in 96 gallon roll out cart or regular paper collection recycling bins.
- Participants in Curbside Recycling Program are responsible for transporting accumulated and bagged shredded and cross-cut paper (>1" long) to the curb on collection day.

## Pulverized Paper

- Cross-cut shredded paper that is less than 1" long is not recyclable in the normal paper recycling stream. Treat as pulverized paper.
- Pulverized paper is collected and used as input for other projects.
- Participants in the Curbside Recycling Program are responsible for transporting accumulated and bagged pulverized/cross-cut paper to the curb on collection day.

**Shredded, cross-cut and pulverized paper can also be taken directly to the Fort Polk Recycling Center.**

**Turn in at the Fort Polk Recycling Center located at BLDG# 3622 on the corner of Georgia and Main Ave.**

**Or**

**Participate in the Curbside Recycling Program. For more information, contact 531-4352.**

# Mixed Paper/Paper Board Recycling

Mixed paper includes almost all other paper products **NOT** considered to be white paper or corrugated cardboard. Paper board is the cardboard like material found in paper towel rolls and boxes that hold can drinks. The following are examples of mixed paper and paper board:

- Magazines
- Telephone books
- Paper bags
- Maps
- Books/Manuals (unless considered white paper, then remove bindings and coverings, if possible, and place in “white paper” receptacle.
- Newspaper with inserts
- File folders
- Phone books
- Carbonless duplication paper
- Tablet paper
- Discarded mail
- Envelopes
- Packing paper
- Food boxes (paper board)
- Soda boxes (paper board)
- Computer printout paper that has pink, green, or blue bars to delineate the rows
- All colored paper (color was present before printing)
- Post-it notes
- Frozen food boxes

**And any other clean paper material not listed here.**

Participants in the Curbside Recycling Program are responsible for placing accumulated mixed paper in the roll-off bins for pick-up.

**Turn in at the Fort Polk Recycling Center located at BLDG# 3622 on the corner of Georgia and Main Ave.**

Or

**Participate in the Curbside Recycling Program. For more information, contact 531-4352.**
